---

## Education

### Virginia Commonwealth University

Bachelor of Fine Arts in Kinetic Imaging, Minor in Mathematics (May 2022)

Study of Video Production, Video Editing, Animation, and Sound Design

---

## Professional Experience

### Animal Care Technician

June 2022 – Present

Richmond SPCA, Richmond, VA

- Communicate with a team of roughly 20 coworkers to ensure the proper care and safety for over 150 animals in the shelter daily
- Manage time during 8 hour shifts to guarantee interdepartmental operations function efficiently
- Prioritize enrichment to animals through regular handling to increase adoptability

### Art Technology Assistant

August 2021 – May 2022

Department of Kinetic Imaging at Virginia Commonwealth University, Richmond, VA

- Assisted professors and students in choosing the right production equipment out of a catalog of 200 cameras, projectors, audio recorders, and general technology
- Provided up-to-date information for video and animation production techniques with emphasis on software, like the Adobe Creative Suite and Mac OS
- Tested equipment in catalog that needed replaced or repaired to send for supervisor review

### Architectural Visualization Intern

July 2021 – April 2022

Noland Creative LLC, Richmond, VA

- Modeled 3D representations of buildings in Revit from architectural drafts in AutoCAD, with close attention to small details for commercial clients
- Reviewed feedback from direct supervisor and client to implement 5-8 structures at a time
- Performed within a hybrid work structure to quickly complete up to 3 projects simultaneously

### Resident Assistant

July 2019 – May 2021

Virginia Commonwealth University Residential Life and Housing, Richmond, VA

- Managed a residential community of 35 students in dormitories and guided residents' college experience by providing appropriate resources
  - Designed social content with Canva and Photoshop about upcoming events to achieve at least 60% resident participation in targeted communities
  - Collaborated with a diverse staff of 50 other students who contributed unique perspectives
-
